It is too late (staff meeting started at 9), but I edited what you sent me, anyway.

Benita will only mention what she thinks she needs to mention.

Romell,

Tom is right. See much shorter version attached, if it's not too late.

This is good but too detailed/long for the purpose of a staff meeting update. That noted, Benita should be able to extract what she needs. Think in terms of one or two not-very-long bullets. I'll send last week's tlk pts as an example.
